

## Oxiracetam Nootropic Powder Supplements CAS 62613-82-5 For Improving Memory

Our Product Introduction

for more products please visit us on [bodybuild-supplement.com](http://bodybuild-supplement.com)

### Basic Information

- Place of Origin: China
- Minimum Order Quantity: 10Grams
- Price: USD
- Packaging Details: 1kg/Foil Bag
- Delivery Time: 3-7days after received payment
- Payment Terms: T/T, Western Union, PayPal
- Supply Ability: 5000KG Per Year

### Product Specification

- Product Name: Oxiracetam
- Cas: 62613-82-5
- Appearance: White Powder
- Purity: 99%
- Usage: Improving Memory
- Highlight: Oxiracetam Nootropic Powder Supplements, Memory Nootropic Powder Supplements, 62613-82-5

## Product Description

### Improving Memory Use Oxiracetam Raw Powder CAS. 62613-82-5 99% Purity

#### Top Quality Powder Oxiracetam Good for Healthy Benefits CAS: 62613-82-5

##### What is Oxiracetam?

Oxiracetam is a nootropic drug of the racetam family and stimulant. Oxiracetam is a true cognitive enhancer that affects a wide range of cognitive processes, improving everything from attention span to memory, learning capacity, concentration/focus, sensory perception, and even technical/logical thinking. It also acts as a stimulant, increasing mental energy, alertness, and motivation. Studies show that it is safe and effective in long-term therapy, and there is even clinical evidence that it may even promote and preserve brain health. Several animal studies suggest that the substance is safe even when high doses are consumed for a long period of time.

|                   |                                                              |
|-------------------|--------------------------------------------------------------|
| Product name      | oxiracetam                                                   |
| CAS No.           | 62613-82-5                                                   |
| Molecular formula | C <sub>6</sub> H <sub>10</sub> N <sub>2</sub> O <sub>3</sub> |
| Molecular weight  | 158.16                                                       |
| EINECS number     | 636-370-0                                                    |
| Purity            | >99%                                                         |
| Standard          | Pharmaceutical Grade                                         |
| Appearance        | White or almost white crystal powder                         |

##### Function and Application

1. Aniracetam can heighten focus & motivation;
2. Aniracetam can support memory formation & recall;
3. Aniracetam can enhance mood & reduce anxiety.
